

WOMEN WHO STOP AT NOTHING

FOR ST. MICHAEL'S HOSPITAL AND PROVIDENCE HEALTHCARE

“When women are involved at all levels of the health-care system, they encourage innovation and serve as role models to others. ‘No, you can’t’ and ‘no, it’s not possible’ become ‘anything is possible.’” – Dr. Sharon Straus

THE POWER CIRCLE

In Canada today, economic power is shifting. Women control a far greater share of Canada’s wealth than ever before. And that means we have more power to support the causes we care about most. Women are poised to change the face and impact of Canadian philanthropy.

We know that as women, we donate a higher percentage of our assets to charity than men do. And we know that the causes we are most passionate about include health, poverty, children, women’s rights and education – all of which align deeply with the mission and strengths of St. Michael’s Hospital and Providence Healthcare.

That’s why the Foundation is assembling a community of women who believe in working together and using philanthropy to drive lasting change. Who are motivated to advance health, and excited to collaborate on solutions.

Our goal is to foster a stronger spirit of philanthropy among women at St. Michael’s Hospital and Providence Healthcare – women of all generations, representing many industries and cultures. Women who believe that, with our support, St. Michael’s and Providence can achieve significant breakthroughs in human health. This isn’t just about raising money. It’s about genuine opportunities to make a real-world impact.

Our aspirations for the Power Circle come at a moment when St. Michael’s and Providence have done the unprecedented. We’ve launched an audacious \$1-billion movement to reinvent Canada’s patient experience. It’s called HUMANCARE.

The reason? Research shows that while Canadians say they’re happy with the quality of medical treatment they receive, they’re far less satisfied with the patient experience they endure. We believe Canadian patients deserve better.

Our vision is simple: A health-care experience where patients feel comforted when they’re at their most vulnerable, connected to the health teams that care for them, and confident in the treatment they receive – no matter who they are or where they come from.

To get there, we're designing the best care – when, where and how patients need it. We're focusing research on discovery that prevents illness and customizes medicine. We're revamping medical education to teach not just the best technical skills, but the best people skills as well. We're leading a digital transformation to make access to health care faster and treatments more precise. And we're making health equity even more central to our mission.

Because we'll stop at nothing to deliver the care experience patients deserve.

WHAT MEMBERSHIP MEANS

Membership offers access to an extraordinary community of peers and leaders who share St. Michael's and Providence's vision to transform the care experience. High-end, curated programs provide opportunities to connect with thought leaders, innovators and experts at the helm of change. Philanthropic mentorship means leaders can pay it forward, giving the next generation the chance to learn from their wisdom and experience.

Women have the power to effect disruptive change in our health-care system. Please join us.

“We have a remarkable opportunity – to drive change, support medical research, and help transform patient care. There's no limit to what we, as women, can accomplish by working together.”

– *Martine Irman*

MEMBERSHIP LEVELS

- 1. CHANGE MAKERS** (\$50,000 over 2 years) – includes an opportunity to invite a Rising Star Philanthropist to join with you at no cost
- 2. RISING STARS** (\$5,000 over 2 years)

MEMBERSHIP BENEFITS

Join us for a series of exclusive educational and social events with other passionate and empowered women interested in making a difference in health care.

- Opportunities for mentorship and networking.
- Impact Event with leading female doctors, researchers and scientists around the latest innovations in medicine and research.
- Participate in tours and other selected activities within the hospitals and research institute to learn and witness the impacts of philanthropy.
- Profile in Annual Report, social media, and other recognition opportunities.
- Other curated special opportunities.

Please contact us with any questions.
